

22th – 26th April 2024

Esquel, Chubut. Patagonia Argentina

THIRD ANNOUNCEMENT

We are glad to announce that we have been able to reduce registration fees!

Also, SPUN (Society for the Protection of Underground networks) will be sponsoring fellowships for participants that offers oral presentations (master's & PhD students, postdoctoral researchers or assistant professors) from Argentina and the global south.

Please be aware that both Registration and Abstract Submission are open. We need you to fulfill the inscription and mention your intention to participate in the post-meeting trip. We are working to improve costs, but for that, we need to have an estimate of how many people might be interested.

Registration fees are now:

For information about registration form, payment and abstract submission, please visit **our web page:** <https://iwemm11.ciefap.org.ar> or write to **our e-mail** iwemm11@correociefap.org.ar

22th – 26th April 2024

Esquel, Chubut. Patagonia Argentina

Please remember

Abstract submission deadline: **January 31, 2024**

Registration deadline: **March 30, 2024**

Send an email to **pre-register** to the workshop and to the post meeting trip.

Fellowships

The fellowship sponsored by SPUN (<https://www.spun.earth>) will cover the complete registration. Local Applicants, from Latin America and from the global south are prioritized.

The fellowship is directed to master's or PhD students, postdoctoral and assistant researchers.

A proposed oral presentation for the workshop is required with the application. The application form will be available soon in the web site

Los Alerces National Park field trip (Wednesday 24)

Field trip includes a visit to Río Arrayanes and Río Rivadavia Trails to walk in *Nothofagus dombeyi* forests and enjoy the beautiful landscapes, fungal diversity, lakes, mountains and native flora and fauna. It is a 70-km trip (about 2 hours) from Esquel, going through mountain roads. Along the trip native and introduced flora can be observed. The aim of this visit is to walk in the forest and identify the ecm funga present, several endemism, their associated hosts and other saprotroph and parasite edible Fungi. The trip offer several panoramic view of the valley and the National Park, beautiful cascades, huge lakes and different subantartic trees associations.

The trip continues with stops in different areas of the park to see some of the main touristic attraction and after that we will enjoy an “asado criollo” (traditional barbecue), as well as a variety of vegetables for those who prefer vegetarian food. After late lunch we will have traditional dances and shows.

22th – 26th April 2024

Esquel, Chubut. Patagonia Argentina
